World's Most  
Powerful  
Self Learning  
Techniques!**

# Accelerated Learning Programme

*(formerly Digital RCRT®)*

***For Learners, 6th grade and above.***

# About The Accelerated Learning Programme

**The Accelerated Learning Programme** (formerly Digital RCRT<sup>®</sup>) empowers learners aged 10 and above with self-learning techniques that enhance their ability to understand, process, and retain their academic syllabus effectively.

Designed around the core belief that intelligence, memory, and mental training are interconnected, the Programme helps learners unlock their full potential by optimizing how they use their minds. It focuses on making students independent in their studies while allowing time for other passions like sports, music, or literature—without compromising academic performance.

## **Our goal is simple: to help learners**

1. Retain what they learn for life,
2. Focus on other interests, and
3. Score 100/100 with confidence.

This is not a tuition class. It's a scientifically designed self-learning system best suited for students from 5th to 10th grade but effective for all.

# The Value Of Education in Human Development

Education is a pillar of modern society, the values it inculcates in our population has effects on generations to come. Education is much more than its face value, i.e. what people understand it to be. Rather, it goes beyond textbook or academic learning. As a process it inculcates good morales, a positive attitude towards life, ethical behavior and a need to help others. Therefore, education plays a very important role in human development.

Education is an essential aspect of human development as it provides an avenue to help people to grow economically and broaden their understanding of cultural and social practices in the community. Education is the key to development as it opens up a world of possibilities and aids to unleash the potential of the human mind.

Hence, it is vital for us to focus and establish conscious eco-systems of mindful and progressive education.

# The Problems With The Current Education System

## Academic and Mental Stress

- Learners are burdened with academic work and homework.
- Increase in academic competition and tuition stress is unhealthy for learners.

## Inability to Take Part in Other Activities

- Due to academic stress and competition, learners are unable to take part in their real interest or other co-curricular activities.

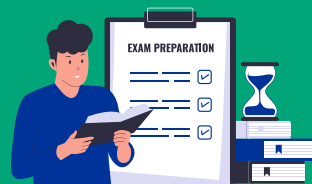

## Poor Marks and Participation

- Due to mental stress and competition, some learners are left behind and thus are unable to participate in-class and out-of-class activities.

### Exam Fear?

### Syllabus Preparation Stress?

### Lack of Time Management?

The  
Accelerated Learning Programme is a  
Guaranteed Solution.

# Solutions Through The Accelerated Learning Programme

## Easing Education

- Through the Accelerated Learning Programme a learner is empowered to learn a subject matter within 10 days.
- The Accelerated Learning Programme makes learning simple and fast.

## Potential of Scoring 100% Marks

- Through our Programme and its techniques, learners can potentially score 100% as a result of heightened photographic memory, healthy learning habits, and easy comprehension abilities.
- Enables rapid compression and quick revision of the subject matter.

## More Time for Other Interest

- Once a learner has completed their academic syllabus through our techniques, they can take up other interests like sports, creativity, and even entrepreneurship.

# How Does The Accelerated Learning Programme Helps Learners?

The Accelerated Learning Programme is an effective and efficient methodology that can be easily adopted by learners. The inclusion of can have the following benefits:

**Learners get outstanding academic results**

**Faster syllabus completion enables focus on experiential and analytical learning.**

**Improved learner proficiency and stronger subconscious memory lead to higher academic mastery.**

**More spare time for curricular and co-curricular activities.**

**Overall holistic development of the learners.**

# Recommendation

## MURLIDHAR MOHAL

Minister of State for  
Civil Aviation of India

The Accelerated Learning Programme (formerly Digital RCRT) is a phenomenal product. It can drastically change the way students are educated today. Guruji Shri Rishi Prabhakar of SSY, has done tremendous service to society and has helped thousands of people across the globe through the Accelerated Learning Programme technique. His efforts are commendable. My heartiest congratulations to Siddhant and Arundhati Rishi Prabhakar on bringing this course to the masses now via the Accelerated Learning Programme. We now have an opportunity to support thousands of students in India and around the world. I believe that Siddhant has taken a big leap for the betterment of the world and will support national development.

## SWARUP DUTTA

Education and  
Inspirational Speaker

The Accelerated Learning Programme brings about that much needed shift from “Teacher centric” education to “student centric” learning, where students are the decision makers of what they want to learn thus making them creators of knowledge from mere absorbers of knowledge. Guruji has done phenomenal work in the field of education, particularly with school children and who better than Siddhant himself to take the vision of his great father forward through the Accelerated Learning Programme. I would recommend the Accelerated Learning Programme to learners simply because I have personally witnessed the unbelievable pace at which children complete their entire syllabus and the confidence it stirs in them when they are able to retain and generate all that they have learnt with utmost perfection.

## NITHYA SHANTI

Spiritual Coach and Inspirational Speaker

The Accelerated Learning Programme is a systematic teaching on how to learn. This is a more effective way of learning which is put together to access deeper consciousness mind. There is a connection between memory and awareness. There is lot to learn from ancient wisdom and the Accelerated Learning Programme is one such powerful steps towards it.

In education it relates as to taking what is thought making it more effective as “to learn” how “to learn so they can retain their syllabus” in the memory.

**MESSAGE**

I had an opportunity to witness the demonstration of 100% Memory Programme (HMP) by the students of Rishi Gurukulam. It was a revelation to observe the students exhibit exceptional ability in faster assimilation, comprehension of subjects and retention of the same for years.

The concept of HMP is new and fresh. It is an uncommon and unusual method of most effective teaching, which induces us to take a re-look into the methods of time honoured traditional methods of teaching. Unorthodox approach to the teaching horizon will indeed be a path-breaking endeavour, which will set a new trend in the field of Education. Shri Guruji Rishi Prabhakar deserves all praise and appreciation for pioneering a unique system of teaching and his attempts to bring in cost effective means of education need to be supported and encouraged.

I humbly urge the Guruji to be magnanimous and exchange the know how of this genius evolution in order to benefit a large student fraternity all over the State and outside too.

Primary and Secondary Education of Karnataka

# Testimonials

“

Now, I feel very responsible and mannered. I have learnt many things from this course. it was an amazing experience here and won't forget it. I would surely practice what I have learn and avail its full benefit.

~ **Yogendra M** (*Pune, Maharashtra*)

“

The Accelerated Learning Programme is very useful for studies. They helped us a lot, now we are tension free. I find myself changed. I have become independent and I learn to finish the load whatever I take and also be grateful for what I have. I've become more confident.

~ **Siya Kulkarni** (*Nashik, Maharashtra*)

“

I would never-ever forget the learnings taught here about the values and fundamental education of life. The Accelerated Learning Programme is the best experience I had in my whole life.

~ **Tejas Aghase** (*Pune, Maharashtra*)

# Founder Siddhant

*Arundhati Rishi Prabhakar*®

Siddhant Arundhati Rishi Prabhakar® is a social entrepreneur, keynote speaker, and skilled modern-day practitioner based in Pune and Bengaluru, India. As a successor to his visionary parents, he aspires to be a global leader focused on sustainable, conscious solutions.

Through initiatives like the Rishi Prabhakar International Foundation® and the KneuroSphere®, Siddhant is empowering youth and promoting holistic education. He is committed to advancing his family's legacy by fostering human potential and raising collective consciousness. Believing that true merit lies in action, Siddhant envisions a shift towards integrated ecosystems rooted in commerce and consciousness.

# Our Inspiration

## Guruji Shri Rishi Prabhakar<sup>®</sup>

Guruji Shri Rishi Prabhakar<sup>®</sup>, an Indian philosopher and spiritualist, is the founder of Rishi Samskruti Vidya Kendra (RSVK). He developed the Siddha Samadhi Yoga (SSY) programme along with several others, sparking spiritual awakening and guiding countless seekers worldwide.

In the early 21st century, Guruji created the RCRT Programme to reduce academic stress for students. He envisioned a system where learners could be free from academic burden and gain time to explore their creative interests and passions.

Guruji also dreamed of establishing modern Gurukulams globally centres of consciousness-based education where students would be trained using RCRT to achieve 100% marks through 100% memory.

# Our Inspiration

## Smt. Arundhati Rishi Prabhakar®

Smt. Arundhati Rishi Prabhakar®, lovingly known as Arundhati Ma, was among the first RCRT facilitators trained directly under Guruji. A pillar of motivation and support for RCRT's growth especially this digital course she strongly believed in effortless learning and encouraged every student to benefit from this powerful discovery.

In her years with Guruji, Arundhati Ma had deeply imbibed his values and boundless love for the Divine. Sharing his compassion and wisdom, she inspired people to dive inward and grow into confident, authentic individuals. She stood for creativity, hard work, and bold, rightful action guided by a deep sense of self-responsibility.
